

About The CellCenter™ Detoxification Program
 The New Medicine Foundation's proprietary organic detoxification renews and rebalances the body. As a result of true lipophilic detoxification, body toxins and hormonal excesses are removed, a key step in restoring biochemical balance and ensuring patient satisfaction and adherence to a more sustainable healthstyle. Results are profound and patient education is comprehensive and effective.

PureCell™

PureCell™ is the NMF's standardized prescription bio-identical hormone compounds, detoxification agents and nutritional replacement products. These products are important to set a standard to be followed by this largely unregulated segment of the industry. Biochemical effectiveness is an absolute necessity in creating a true and widely accepted new movement in healthcare. Much of the lack of tolerance for non-traditional care today is due to the lack of a standard for necessary biochemical deficiency treatments and products. PureCell™ products have met the Foundation's standards for effectiveness and quality.

“ Be part of the global paradigm shift towards natural health and create new revenue streams ”

heal & healthcare

The Revenue Structure: Affiliates are compensated for the amount of services they provide. Detailed compensation plans are available on request and provide lucrative career opportunities with purpose, for beginning DNA Counselors on up to affiliate NMF Physicians. The business model allows for all to work together toward the goal of health for our clients, friends, family, and even ourselves. You will find the compensation extremely aggressive compared to other healthcare organizations.

NMF exists to create the new standard for the future of our health, a more sustainable way of life, and a more peaceful existence with our similarly troubled planet. The profit and growth of the Foundation exist solely as a result of lowered expenses of all members and clients as they experience and reclaim their health and healthstyle in much less consumptive and expensive way.

As our failing system is a \$3 trillion pharmaceutically and politically driven juggernaut, with your health and

help, NMF's mission is to remove fully one-third of this wasteful spending. In doing so and by redistributing just a fraction of that potential savings of \$1 trillion, the lives of all involved can be greatly enriched with health and significant prosperity. We look forward to answering more of your questions and having you join our team in this needed health-E-conomic venture.

New NMF Corporate Headquarters-Stuart, Florida

design by zardart.com

The New Medicine Foundation provides natural and efficient health solutions backed by evidence-based scientific data. In a world plagued by epidemics of chronic adult and childhood diseases, NMF strives to fill in the gaps in information sought by growing numbers of patients and physicians. NMF strives to set a new standard in health care and become the face of new medicine.

Join us in this new endeavor and help improve your patients' health by restoring balance in their biochemistry.

The New Medicine Foundation's protocols and science methods produce quantifiable results for people and their health. We offer an efficient pathway to health through effectively restoring balance to patients' biochemistry. Be part of the paradigm shift as a partner of the New Medicine Foundation (NMF) and be supported with a global team and state-of-the-art, easy-to-use tools for both you and your patients.

health

THE PROBLEM

Today few people are truly healthy. Toxicity is ubiquitous, pervasive and increasing due to the environment, nutritionally deficient food and excessive medication. The direct effects are hormone imbalances, nutritional deficiencies, toxic reactions, inflammation and an overwhelmed body. We are a biochemical mess and when we feel less than vital and seek help, we are often treated with more chemicals. The symptoms manifest into chronic illness, the cause of diseases, death, and even the deficit as our nation is crippled with an unsustainable health care system.

Western medicine organizes disease as groups of symptoms. Healthy patients aren't profitable and early detection of cancer and chronic illness is increasingly profitable; but most of us went into the profession to serve and heal people.

As the No. 1 killer of people, cancer is rampant and developing in one out of three people. Also, 85 percent of the population develops heart disease (one in two heart attacks will be the first sign of heart disease), one-third of us have diabetes and another one-third is developing it and doesn't know it. Obesity and autoimmune illnesses plague the nation. Childhood and juvenile chronic illnesses are on the rise and developing countries are adopting our dangerous food and health habits. This global problem demands an answer from medical professionals, healers and physicians everywhere.

THE SOLUTION

The New Medicine Foundation has the answer. We have developed protocols to aid physicians to treat the whole person and guide them to health. Using comprehensive, accurate and efficient testing and other analysis, we are able to track a patient's biomarkers and prescribe precise solutions to their individual health challenges.

THE 3 STEPS TO REGAIN HEALTH:

1. Detoxification with CellCenter™, our proprietary program
2. Appropriate, conservative hormone balancing
3. Functional nutrition

Patients actively regain health under the physician's guidance and oversight. They are motivated to be responsible for their own health and are supported in that goal with the New Medicine Foundation's counseling and educational tools and their own personal healthcare team. This is the answer to the epidemics of chronic illness, and the results are nothing short of revolutionary.

The New Medicine Foundation uses technology to assist people in their health lifestyle. As a partner you will have access to our branded products, educational tools and technology. Most important, you will be supported by people who care and "walk the talk" of health.

Expand Your Practice Beyond the Clinic: Based on reasonably priced but profitable and comprehensive treatment plans, the highest integrity science and lower overhead, you'll have more profits and an almost unlimited amount of clients.

Virtual Opportunities – Tools for You and Your Patients: To get started on the road to health with the New Medicine Foundation, a patient first completes blood and saliva testing that is coordinated online and drop shipped to them. The doctor receives the test results through the laboratory service and can then prescribe nutritional supplements and/or bio-identical hormones based on the needs of the patient. The supplements and hormones are created by NMF's own contracted compounding pharmacy to assure quality and sent directly to the patient. If the patient is a candidate and medically cleared for detoxification, the CellCenter kit is also prescribed and drop shipped directly to them or through your office (license dependent). Videos and other information to support the patient are available online. Patients receive support from your counselors or NMF through our Detoxification Network, DNA. Regular conference calls and web seminars are also available. The ability to treat people virtually untethers the physician and opens up endless opportunities. It's possible to treat whole families around the globe — just like in the old days when there was one physician for a family.

This Is A Huge, Ever-Growing Market: With the advent of cellular phones and now smart phones the whole process of health is changing. Currently there are 5.3 billion mobile subscribers (77% of the world population). The Internet is revolutionizing nearly every industry and aspect of life and commerce, a fact NMF has embraced and perfected at the request of its growing network of global patients.

newmedicinefoundation.org

While many other organizations exist that provide new and natural information, no standards have been created. NMF strives to set this new standard in health care and become the face of new medicine. NMF will educate future practitioners in how to better identify the true causes of symptoms, diseases and healthcare problems. NMF exists to address the epidemic of chronic illness and to improve health naturally.

We are looking for physicians and health professionals to join our team. You will maintain independence for your practice but use our marketing strategies, protocols and tools to create revenue and deliver the results both you and your patients seek. The concept also enables healthcare delivery virtually using the phone, computer and web, which opens the door to a rich stream of new clients and expands existing clinics beyond their walls.

By evaluating a patient's biochemistry comprehensively using NMF's scientific philosophy paired with a patient's detailed history and current health, we are able to see what is happening for the patient, both physically and mentally, anywhere in the world. We are also able to predict probable future manifestation of illness, an unfortunate certainty for 98 percent of modern society. Then, using our proprietary medical detoxification program, and hormonal and nutritional balancing techniques, we naturally bring the body back into optimal balance...quickly, affordably and virtually. The body wants to heal. With organic nutrition as the foundation and source for life we help people renew, live long and maximize their life function and enjoyment.
